

Free sample pack by [ToneScape.de](http://ToneScape.de)

---

Congratulations, you've just downloaded a completely free samplepack with 100 mechanical samples for your projects.

This pack was recorded with a Zoom H1 handheld recorder and contains:

50 samples of switches and buttons from all sorts of appliances, tools and instruments

50 electrical motors from kitchen appliances, cameras and a wheelchair, believe it or not :)

This pack is released under Creative commons license number  
<http://creativecommons.org/licenses/by-nd/3.0/legalcode>

**BY-ND 3.0**

This means that you can freely copy, distribute and transmit this material, but are not allowed to change it.

All samples are 100% royalty free to use in commercial and non-commercial work.

I hope you enjoy my work and that you put it to good use. If you use any of my samples in your productions, I'd love to hear it.

Send a link to [Music@ToneScape.de](mailto:Music@ToneScape.de) or post it on [www.ToneScape.de](http://www.ToneScape.de), which is also packed with free tunes, tips&tricks and other goodies.
